EIGHT DAYS LATER FROM EUROPE.

By the packet ship Independence, Capt. Nye, at New York, London papers have been received to Saturday evening, Sept. 28th.

It is authenticated that the house of Rothschild has accepted the bills of the U. S. Bank dishonored Hottinguer & Co. to the amount of 10,000, francs. But we also have intelligence of new difficulties encountered by Mr. Jaudon, and of his application to the Bank of England for assistance, which to a certain extent has been granted.

The weather had been more favorable for harvesting, and the prices of grain were rather receding.

London, Sept 26.—The city has been occupied all day with various reports respecting new measures at the Bank for the further contraction of the circulation, and a considerable decline in consequence took place in the funds. They did not, however, lead to any public announcement on the subject. Other rumors were, and these are supposed not to be without foundation, that an application for assistance had been made to the Bank of England by the agent of the United States Bank, which had produced a very lively discussion in the Bank parlor, where the inconsistency of any interference in the affairs of an institution not of English origin, and whose securities could scarcely be of the legitimate banking class, was very strongly urged.

The result of the application has, however, according to the best version of it, been favorable, but under guarantees from third parties, and with a limitation of time in the first instance till the arrival of the Great Western steam packet from *New-York, which* it is expected will bring remittances of the proper quality, and of amount sufficient to cover existing engagements. There is an easement in circulation which in part differs from this by stating that the guarantee is for one month absolutely, so as to afford the chance of other arrangements besides that of the Great Western, and even *new time,* if necessary, to despatch a vessel to the New-York. The sum applied for is either £250, 000, or £300,000, for both sums have been mentioned.

London, Sept. 27.—The depression which took place yesterday afternoon in the Money Market was the result of several large sales made by speculators, under the expectation that the directors of the Bank of England were about to raise the rate of discount from 6 to 7 per cent. As no such move was issued, the market this morning for all sorts of English stock has improved slightly.—Money, however, is still extremely scarce; it is worth from 10 to 12 per cent. on the Stock Exchange.

The Paris Moniteur states, that, according to official documents, the export of wheat from France during the month of August last did not exceed 3,517 metrical quintals, whilst the imports for domestic consumption during the same period had amounted to 83,102 quintals. There accordingly entered 80,000 quintals more than the quantity exported. "This statement," adds the Moniteur, "will suffice to remove any uneasiness which may have been felt respecting the export of corn." Notwithstanding this assurance, our Paris correspondent informs us that the Government is not without fears for the winter. The "sections" were to be beginning to hold frequent meetings, and there was little doubt, if the price of the four pound loaf rises, as may be believed it would, to 9 sous, the Republicans will avail themselves of the circumstance to attempt another movement.

Independence of Texas—The treaty between France and Texas was signed in Paris on Wednesday. France, of course, recognizes the independence of that republic, and the relations between the two countries are placed on a footing of perfect reciprocity. The treaty is not to be made public until ratified by the Senate and President of Texas.

A daughter of Mr. Daniel Webster, of the American Senate, was married on Monday, in London, to a gentleman named Appleton, of Boston, United States. The occasion was honored by the presence of the American Minister and Lady, and Mr. Rush; the Belgian Minister and Madame Van de Weyer, Sir Henry Halford, Bart., and a large number of ladies and gentleman, English and American.

To of Mr. Webster's associates in the Senate of the United States—Mr. Linn (of Missouri,) and Mr. Young (of Illinois)—were among the company. After the ceremony the company partook of a dejeune with Mr. Webster, at the Brunswick Hotel; after which the new married couple left London on a tour.—*London paper.*

A BOY KILLED.—While four boys were out a pigeon shooting, near Jeffersonville, opposite Louisville, one became incensed with the other for scaring up the birds, and threatened to shoot him, at her discharged the piece and killed his offending comrade. He wept bitterly, and at last it was agreed with the others to conceal the body. The distressed father came in a day or two to Louisville to seek for his son, and discovered his death by some words he overheard from the boys whom he accompanied. The one who caused his death is in Jail.

Another big bid for to be the Lowell of New Hampshire—increasing in business and population very fast A sale of building lots lately took place there—some of which went off as high as 46 1-2 cents a foot—and the sales amounted to nearly $68,000.

Nashua Railroad.—We learn from the N. H. Telegraph, that the Nashua and Lowell Railroad has been in operation one year, having commenced on the 8th day of October, of last year. During this period 74,000 passengers have been carried over it—exceeding by fifty per cent the highest estimate, for the whole year. And it is worthy of remark, that during all this time not the slightest accident has occurred to a single passenger.—*Boston Merc. Journal*

Important from Texas—The Houston Intelligencer (Sept. 19th, says:

Gen. Anaya, of the Federal party in Mexico, who has spent the last eight or ten days in our city, will shortly make a visit to the United States. His proposition to enlist troops in Texas has been rejected. We hope his journey to the United States may prove successful, as his object is to obtain persons to carry on a war against the central party of his own country.

The Norwich and Worcester Rail Road is nearly completed, and will soon be in operation. There will then be two continuous lines of Rail Road from Boston to Long Island Sound; and when the link between Springfield and Hartford is supplied, there will be a 3d

By the last accounts from Natchez, the yellow fever continued without abatement. The deaths were from ten to nine per day.

Mr Poulett Thompson, the new Governor of Canada, has arrived at Quebec, and Sir John Colborne, the Ex-Governor, has departed for England.

CASE OF RUIZ AND MONTEZ.—In this case Judge Inglis decided that the defendant Montez, be discharged from custody, on filing common or nominal bail, and that the amount of bail, which the defendant Ruiz is required to give, be reduced to two hundred and fifty dollars.

The ground of the decision was that Ruiz was the pretended owner and director of plaintiffs, slaves in question, and may have been guilty of false imprisonment in forcing them on a voyage against their will, while Montez was only the owner of the negro girls, who have made no complaint.

Qu the question of jurisdiction the Court entertained no doubt.

VULPINE SAGACITY.—A very remarkable instance of sagacity and sympathetic feeling in a fox, recently occurred at Etal. A young fox, recently captured, had been fastened in Lord Fitzclarence's stable-yard by a strap attached to its collar round its neck. Another fox which had found its way into the yard from its native haunts, was observed by the servants to be playing with the capture, and shortly afterwards both were found to have made their escape. On examination it was found that the strange fox had bitten through the strap attached to the collar of the other.

TIGHT LACING.—"I think the practice is a public benefit," said a gentleman. "A great public benefit" exclaimed a friend, "how can it be, do not you see that a great many of our young ladies are ruining their healths and losing lives by it?" "Yes yes" returned the other, "but my dear fellow, do you not see that it kills off only the fools, and we shall have all wise ones by and by"

PORTSMOUTH DIRECTORY.—The preparation of this work reflects much credit upon Mr. Edmonds, who has with much patient labour embodied full information on almost every subject which can be given in a municipal work. He has spared no pains or cost in making the work as perfect in its kind as possible. In doing this, he has far exceeded the expense he originally contemplated, and now finds that his subscription price is about half what it ought to have been—The plan of Portsmouth, which he had estimated at about $50, has cost him $150, exclusive of the expense of survey. His actual cash expenses on the work, without allowing him one cent for his own labour, are more than $350, As he can hardly expect to dispose of more than 500 copies at present, at 50 cents a copy, he will be at least $100 in arrears. Now it is not right that so deserving a young man as Mr. Edmonds should suffer a loss of this kind in performing a useful public service.—Will not his subscribers bestow upon him what the subscription price should have been—and cannot some be found who will contribute enough to remunerate Mr. E. for his valuable services?

The election at Baltimore on Monday, for the first Branch of the City Council, terminated in the choice of ten Whigs and fourteen Democrats The second branch is composed of ten Whigs and five Democrats.

A fire explosion took place in one of the coal mines at Pictou, 17th inst It took in pit No. 4, and on the morning of the 18th had extended to another, and the fire was raging at the last accounts. The explosion razed two houses from their foundations, and shattered one to pieces—several lives were lost, and but few horses were saved

The city of Mobile has been placed under martial law. The panic and excitement in consequence of the late successful attempts to burn the city, have been beyond all parallel The President and Directors of the State Bank have tendered $10,000 as a subscription to the poor Among all classes of those burnt out, great distress prevailed Several persons have been arrested under circumstances, which make it almost certain that they were among the incendiaries who fired the city.

According to the list of the Senators elect of Pennsylvania, published in the Philadelphia Sentinel, the Whigs have a majority of one in that body. The parties stand, 17 whigs to 16 locos.

The Philadelphia Ledger states that Mr. Samuel Ramer, of New Jersey, town of Mansfield, has raised a pumpkin this season that weighs 231 pounds, good weight, and measuring 9 feet and 7 inches in circumference. There were six other pumpkins on the same vine, the smallest of which weighed over one hundred pounds.

A homicide of rather a singular character was perpetrated last Thursday near Syracuse, N Y A pedlar, bending under the weight of his pack, encountered on one of the by-roads of that region a foot pad who demanded his money The pedlar handed out his pocket book "Is that all," asked the robber — "No" said the pedlar "Well, then, fork up, and be quick" The pedlar put his hand in his bosom, drew out a pistol, and shot the robber through the heart. The body was recognized as that of a convict just discharged from the Auburn prison.

The Charleston Patriot proposes to the States the establishment of sinking funds for the gradual redemption of their foreign debts. Maryland has a sinking fund for that purpose

The news of the battle of Bunker Hill, was four days in getting to Newport, R. I Passengers are now conveyed from Boston to Newport in about four hours.

Mr. Gravillion, a French impostor, of New-York, has been sent to the Lunatic Asylum by order of the Chancellor. He is said to be worth $900,000.

BISHOP GRISWOLD.—The venerable Bishop Griswold, says the Warren Star, in his address a few weeks since, to the Diocesan Convention, observed that since he exercised the Episcopal office, a period of twenty eight years, that he had admitted one hundred and forty eight to the order of Deacons, and one hundred and eleven to the order of Priests; and during the same period he had administered the rite of Confirmation to nine thousand eight hundred and fifty three persons, and in the same time must have travelled about seventy thousand miles.

Bills of the Vergennes Bank, at Vergennes, Vt. and Medomak, at Waldoboro,' Me. are not received at the Suffolk Bank

The New-Orleans papers caution young men very strongly against rushing into that city after the subsiding of an epidemic, in hope of entering immediately into business, and advise no man to come to New-Orleans with out funds, in the hope of immediately finding business. The same advice will undoubtedly apply to all cities.

RATHBUN.—There is no truth in the report that Rathbun, the great Buffalo forger had been pardoned by Gov Seward The executive has not even been petitioned for his pardon.

Owing to the want of mills and the inability to get to market, from the low state of the water, wheat is selling at 37 1-2 cents a bushel and flour at 10 a $12 a barrel in Rock River County, Ill.

The Providence Journal mentions a Rohan potato received at that office, which weighs 31 1-2 ounces.

Mr. Warner, in Chatham, Ohio, has produced this season 3150 grains of wheat from one kernel.

Lieut. Meade, of the U. S brig Washington, according to the N Y Dispatch, has instituted a suit for slander against Lewis Tappan, and lays his damages at $50,000. The ground of the suit is in Mr. Tappan's assertion that the Lieutenant secreted money found on board the Amistad.

Dr Peck, of Washington, Ky died in a fit of mental excitement, during the great race over the Oakland course at Louisville, between Wagner and Grey Eagle. It is said that he had $10,000 bet upon the race

We have before us a specimen of Cotton which was raised in the Sandwich Islands—the produce of a tree planted fifteen years ago, by Rev. Mr. Richards, one of the Missionaries to that island.—*Boston Mer. Jour.*

We learn from the Salem Gazette that last week a convict in the Charlestown State Prison managed to secrete himself so that he could not be found when the others were locked up, and afterwards attempted to escape by climbing up the spout, which gave way when he was about fifteen feet from the ground, and his arm was broken in the fall.

A little Irish girl named Catherine Ann Jagur, aged 13, while passing across Clinton Place in New-York on Tuesday evening, with a bouquet of flowers in her hand, and in the act of picking up one that had dropped, was run over successively by two carts, crushing her head in such a manner as to cause death.

The whole number of volcanoes known is one hundred and sixty three With the exception of two, the existence of which is problematical, in the interior of Asia, all are situated within fifty leagues of the sea, from which circumstance it may be concluded that water acts no inconsiderable part in these phenomena

It has been ascertained that very good molasses may be made from watermelons, simply by pressing out the juice, and boiling it down to a proper thickness Persons who have used it without knowing from what it was manufactured, did not discover that it was any other than the genuine product of the cane.

Advertising is to trade what steam is to machinery —the grand propelling, go-ahead power; and yet there are some persons, so blind to their own interest as to ponder over a cent which yields them from a hundred to a thousand per cent.

To the editor of the Herald of Freedom .

We are duly sensible, Friend Rogers, of the compliment paid us by copying so many pieces of verse from the Portsmouth Journal into your paper; but Oh, in name of the nine Muses, copy correctly! Murder nothing more of ours, in the name of Justice and Humanity, as thou didst" the Lake at Sunset."—Why, in one line you left out two words; in another, one, and one line you left out entirely!—Justice! Friend Rogers, Justice! VATTEL.

For Purifying the Blood and creating an Appetite

THESE PILLS have been before the public for twenty years, and it is unnecessary to dwell too long on the praise of them, as we can show from frequent solicitations which have been made to have their testimonials made public, and of the unrivalled virtues of this medicine from eminent physicians and others.

These Pills are justly esteemed for their easy operations and good effects, as a mild, safe, and sovereign remedy for Bilious complaints, pains in the head, stomach and bowels—in removing obstructions of every kind by dissolving and discharging morbid matter, helping digestion, restoring a lost appetite, and a sure relief for costiveness. And we could give thousands of certificates from citizens of the United States, that they have been cured of the above complaints in less than twenty-four hours, by taking one or two doses of these Pills They are so accommodated to all ages, sexes and hours, that they may be taken in winter or summer, at any time of the day, without regard to diet or hindrance of business. Their operation is so gentle, pleasant and effectual, that by experience they are found to exceed any other physic heretofore offered to the public

Price 50 cents per box.

Each box contains about fifteen or twenty doses, which proves them to be a cheap medicine, considering their virtues.

DR. DAVENPORT'S CELEBRATED EYE-WATER,
